## objective

---

Motivated and detail-oriented 2nd-year Software Engineering student with hands-on experience in building real-world applications and a passion for continuous learning. Looking for opportunities to apply my skills and gain real-world experience through internships and collaborative projects.

## Education

---

Bachelor of Technology in Software Engineering

Amity University, Raipur

Expected Graduation: 2027

CGPA: 8.28/10

## Technical Skills

---

Languages: Python, C/C++(basic), java(basic)

Web Technologies: HTML, CSS

Others: Problem Solving, Basic Networking, OOPs

## projects

---

Next Step Navigators(HTML, CSS)

- Developed the frontend of a navigation-based website focused on railway stations.
- Designed user-friendly interface with HTML and CSS.
- Project in progress; backend integration planned using Django.

QR Code Generator (Python)

- Created a mini project that generates QR codes for text, URLs, and contact information using Python libraries such as qrcode.

Digital Clock (Python)

- Built a digital clock GUI application using tkinter in Python, displaying real-time clock updates.

File Management App (Python)

- Developed a Python-based file management application to organize, move, and sort files based on their types or extensions.
